INSERTER 3000 & MAXMAILER

INSERTER 3000 & MAXMAILER: THE PERFECT CARD MAILING SOLUTION.

Fast and Easy solution to provide card affixing, folding and enveloping

The **INSERTER 3000** can affix a card quickly and easily to a carrier which is personalized in real time by the laser printer included with the system.

The **INSERTER 3000** can operate in stand alone or in line configuration with other Pro Series equipment, to offer the most complete and flexible solution: from complete personalization of the card to affixing it to a carrier, inserting and enveloping with all necessary attachments, ready for distribution.

The **INSERTER 3000** comes with a carrier barcode reader as standard and is configured to feed the **MAXMAILER** enveloping station.

MAXMAILER

The **MAXMAILER** is a multi-station system that revolutionizes the mailing process and can be adapted to the various market requirements. Directly connected to the **INSERTER 3000**, the **MAXMAILER** receives the carrier with the affixed card and proceeds to fold the carrier into the envelope.

The **MAXMAILER** standard version includes two basic modules, a card folder system and an inserting head. Both modules are provided with a convenient support and storage base. The basic version can be enhanced by adding up to 3 additional modules for insertion of flyers and booklets.

Maxmailer Connection

STANDARD MODULE FEATURES

Control Panel

CONTROL PANEL

The **MAXMAILER** is equipped with a large LCD control panel and a graphic display. Easy and simple to use, it helps the operator follow every step of the process.
